

20th July 2021

Dear Parents and Carers

Firstly, we would like to thank you for all of your support this year to develop your children's learning at home during a very tricky time. Since returning, the children have made outstanding progress and we know that your help with their learning at home has made a big contribution to this.

Some of our parents and carers have asked about learning over the summer holidays. First and foremost, we hope that you are able to relax and enjoy family time together. However, we appreciate that some families may wish to have access to learning opportunities.

With this in mind, class teachers have ensured that there are additional reading books available on Bug Club and Deepening Understanding. The log in details for your child are available via your child's OneNote log in, under the section called 'School Information'. If your child is having trouble logging on to either of these programmes, please speak to their class teacher before the end of term. We are no longer using Education City. For our Year 6 pupils, their high school may have set them some learning activities. For information on this, please speak with your child's high school.

Please click to the link to access [summer learning](#), which contains suggestions for different websites and activities relating to our curriculum subjects. If you are also looking for some fun ideas to do as a family, you will find these here too.

We wish you a healthy and restful summer break.

Yours sincerely,

Miss F R Hopkins
Headteacher
