

Dear Parents and Carers,

I am writing to inform you of some changes we have made to our website. You can still find all the usual information but we have made updates to the 'Our Curriculum' page to provide you with additional information about our approach to teaching and learning. Each subject has its own area with key documents including skill progression maps which tell you the skills your child is working on by subject in each year group.

We also have a new 'Parent Partnership' page which includes links to videos made by our teachers to support learning at home in key areas. These will be added to over the school year in areas that parents have highlighted that they would like more support with or that we have identified will support children's progress.

To help you explore we have created a video that gives you a step by step guide to all the new information. Please [click here](#) to watch the video.

Yours sincerely,

Miss F R Hopkins
